We are extremely proud of our past and passionately look forward to our future. We are excited to celebrate our success by giving back to the community - what could be better and more exciting than feeding your guests and helping feed the Kentuckiana hungry at the same time.

Beha Catering is a THIRD-generation company offering full service catering and bartending services, as well as delivery service with breakfast, lunch and dinner drop-off meals. Our "all inclusive" menu pricing allows our clients a very affordable advantage, such as our unique liquor policy allowing our staff to serve the beverages that you, our client provide. We do however also offer a professional bartending service that can provide all the liquor, set ups, and ice. Beha Catering has it all and you have the peace of mind and protection with our 2 million food and liquor liability insurance coverage.

We are large enough to provide you with an experienced professional staff; and at the same time, take pride in the fact that we are very user friendly offering our clients the uniqueness and flexibility they need and deserve. We at Beha Catering recognize the importance of the food presentation as well as the quality of the products served.

Let us provide the quality food and/or bar service for your next special event and feed the hungry also.
